

Current Rules:

2-5 Players

Equipment:

Game box

BUT, package the book box inside the standard box? People can choose!

5 Player mats

8 slots on each player mat: 1-5 for performers, 6 for backdrop, 7 for prop, 8 for trainer

1 Central mat for draft cards, resource tokens, space to indicate how many tomato dice will be rolled that round

10 dice

5: D20 Collection Dice: symbols A/B/C/C/D/D/E/E/E/F/F/F/G/G/G/G/H/H/H/H

9: D8 "Hecklers": number slots 1/2/3/4/5/6/7/8

140 Cards

64 Characters (see sheet)

10 Background

10 Prop

10 Trainer

10 Re-rolls (5 press pass, 5 tomato)

16 Favor (8 1st, 8 2nd)

24 Resource (1/2/3 x 2 of each of cards, hearts, stars, coins)

163 Tokens

50 stars

50 hearts

50 coins

13 trophies

5 Draft Order Stands

Object of the Game:

Create the most legendary troupe of performers of all time!

Set-Up:

Give each player a board. Each board has slots for 5 performers, 1 backdrop, 1 prop, and 1 trainer.

Shuffle the deck and place it in the center. Create the market by putting out 4 cards next to the deck.

Randomly select a player to go first and give them the “1” draft order stand. They receive no starting coins. Give the next player clockwise the “2” stand and 2 coins, the next player clockwise the “3” stand and 4 coins, etc.

How to Play

Each round: Lay out cards in the middle equal to $\text{players} \times 2 + 1$

Take turns in order as indicated by your turn order stands.

On Your Turn

You have two choices:

1. Acquire 1 card.

Free from the draft options.

Or, pay 1-4 coins from market. If purchased from the market, shift all cards down and place out a new card on the 4 coin slot. **Note:** Before choosing to acquire a card or not you can reset the market by paying 1 coin. You can do this any number of times (paying 1 coin per time) before making your choice.

When acquiring, pull hearts from the center onto the card, as indicated by its starting full heart amounts.

If a necessary slot on your board is full, send it to reserve. You can have unlimited cards in reserve at a time, including draft picks.

2. Or, rearrange your cards in any way.

After 1 card remains in the draft, discard that final card and proceed with dice rolls. Players will usually have about 2 turns in a round, but may have more (because players spent turns buying cards from the market or rearranging cards), or less (because players used favors acquired in previous rounds).

Roll Collection Dice, Assign Trophy, Assign Draft Positions

Roll collection dice **one at a time**, and all collect earned resources. Star and coin tokens are placed by boards. Heart tokens are immediately assigned to specific cards (on

starters or reserve cards). Hearts can only be placed on a card up to its max heart amount.

The player who earned the most stars in the round takes a Trophy! If tied on stars, the tied player with the most coins wins the trophy. If still tied, both tied players take a trophy.

The Trophy winner(s) then must remove 1 heart from each of their starters. Do not move up replacement cards into slots at this time.

The player who received the fewest stars takes the “1” draft position. The player with the next fewest takes the “2” and so on. If there was a tie, the player with fewer coins takes the better (aka lower number) draft position. If still tied, fewer total trophies. If still tied, roll-off.

Roll Tomato Dice

Any player rolls a number of tomato dice equal to the round number (meaning the first round you just roll 1, next round 2, etc). Players remove hearts from the indicated slots. If a “heart” is removed from a starter with no hearts, the card is discarded.

After the tomato rolls, empty starting slots must be filled in from reserve cards (if available).

Begin the next round by placing cards out equal to $2x + 1$ the number of players and adding 1 more tomato dice to the center (to help you remember which round it is). Continue playing rounds until there is a winner.

Winning

After a player reaches x trophies, they win! If two players win simultaneously, they win together!

4-5 player: 3 trophies

2-3 player: 4 trophies

Nitty Gritties

If you reset the market but do not buy a card, you still have the option to instead use your turn to draft a card or swap out your cards.

Can't spend a draft pick to draft the exact same type of favor card (1st for 1st, 2nd for 2nd).

Type of Cards

Performers

If you acquired a card during your turn, place hearts on acquired cards as shown on the cards when you draft them. If you place a drafted card into a position on your board that is full, move the replaced card to your reserve.

Resource Cards

If you acquire a card that has only coins, hearts, or points it does not go into your lineup. Instead, you immediately take the indicated amount of coins, or immediately assign the indicated amount of hearts to any of your starters or reserves, or give yourself stars for the current round.

Favor Cards

If you acquire a Favor card, place it in your reserve. In any future round you may discard the Favor immediately following your 1st or 2nd turn (as indicated on the card) to take an additional turn. You can use that turn to do one of any of the standard turn actions (acquire, add resource, swap).

Re-roll Cards

Much like resource cards, these remain in your reserve until spent to re-roll the collection or tomato dice.
